الجامعات العربية ودورها في مواجهة تحديات جائحة كورونا "الجهود البحثية والتوعوية"

The Role of Arab universities in facing the challenges of the Corona pandemic "Research and outreach efforts"

Introduction

Universities around the world today face a major challenge represented by the outbreak of the Coronavirus, which has become a pandemic that has imposed on universities a new reality, and has become in urgent need to harness its capabilities in order to play an educational, societal and scientific role to confront this great challenge, and to benefit from the outputs of scientific research to address the Corona pandemic by applied scientific research in various medical fields, information technology and artificial intelligence applications, in order to prevent, treat and limit the spread of this epidemic, and maintain the security and safety of the educational process parties particularly, and the human community in general. Adding the role of university in health education, which is the cornerstone of epidemic prevention and treatment stages, especially in light of the disruption of front-line services for primary health care, the slow procedures of vaccination processes, and the hesitation of a large number of community members due to fear and misinformation about vaccines.

مقدمة

تواجه الجامعات في مختلف أنحاء العالم اليوم تحدياً كبيراً يتمثل بتفشي فيروس كورونا، والذي أصبح جائحة فرضت على الجامعات واقعاً جديداً، واصبحت في حاجة ملحة الى تسخير امكاناتها من أجل القيام بدور توعوي ومجتمعي وبحثي لمواجهة هذا التحدي الكبير، والاستفادة من مخرجات البحث العلمي للتصدي لجائحة كورونا من خلال البحوث العلمية التطبيقية في مختلف المجالات الطبية، وتكنولوجيا المعلومات وتطبيقات الذكاء الاصطناعي، من أجل الوقاية والعلاج والحد من انتشار هذا الوباء، والحفاظ على أمن وسلامة أطراف العملية التعليمية بشكل خاص، والمجتمع الانساني بشكل عام، بالإضافة الى دورها في التثقيف الصحي والذي يعد الركن الأساس في الوقاية من الوباء ومراحل علاجه، خاصة في ضوء تعطل خدمات الخطوط الأمامية للرعاية الصحية الأولية، وببطء إجراءات عمليات التطعيم، وتردد عدد كبير من افراد المجتمع بسبب الخوف والمعلومات المضللة حول اللقاحات
