

Safeguard Your Research: Avoiding Predatory Journals

Egyptian Knowledge Bank
بنك المعرفة المصري

11th of November

2024

12:00 - 13:00 Cairo Time

Please join us for a special webinar to discuss the on-going threat of predatory journals – how to recognise them; why they are detrimental to science and how to avoid them.

During the session we will clarify the definition for predatory journals; how to recognise them and the consequence of predatory publishing for research careers and science in general. In addition, we will present an overview of measures by Scopus to circumvent inclusion of predatory journals.

Speaker

Lucia Schoombee
Senior Customer Success Consultant,
Research Analytics (Elsevier)

Introduction

Defining predatory journals

Other malpractices to be aware of

The Scopus mandate and Course of Action
